(EF SET Certificate)

GERMÁN CHRYSTAN

FULLSTACK WEB DEVELOPER

I am a Full Stack Web Developer, with skills both in Frontend and Backend. Programming is not only my passion, but it is also a field that has thought me the value of teamwork and has connected me with people all over the world. Having worked in positions related to music and arts in general, I always try to think in creative solutions to any situation that is presented in the workplace, and I value the plurality of insights when it comes to share ideas and perspectives.

PROJECTS

Adalov Clothes

E-commerce created in group as the final project for Henry's Full Stack Bootcamp. It uses Mercado Pago's and Argentina Geographic Data Api's. (MongoDB, ExpressJs, ReactJs-Redux, Tailwind CSS, NodeJs).
<https://adalov-front.vercel.app/>

Henry`s Kitchen

Pern application that combines a Postgresql Database with the Spoonacular Api (Postgresql, ExpressJs, ReactJs-Redux, Sass, NodeJs).
<https://henrys-kitchen.vercel.app/>

Weather Network

React application that combines geolocalization and the Open Weather Api to return weather data (ReactJs-Redux, Javascript, CSS).
